

# Marketing Guide

One of the advantages of being a Prowler Proof dealer is your access to state-of-the-art marketing materials that help you make the sale. You'll find most of these materials in this Marketing Guide – along with some simple rules we all need to follow to protect our brand. Please share this information with your marketing suppliers.

We hope you'll find this guide useful – please contact us if you have questions or comments.

Best regards,

**Michael Henry**

Managing Director, Prowler Proof

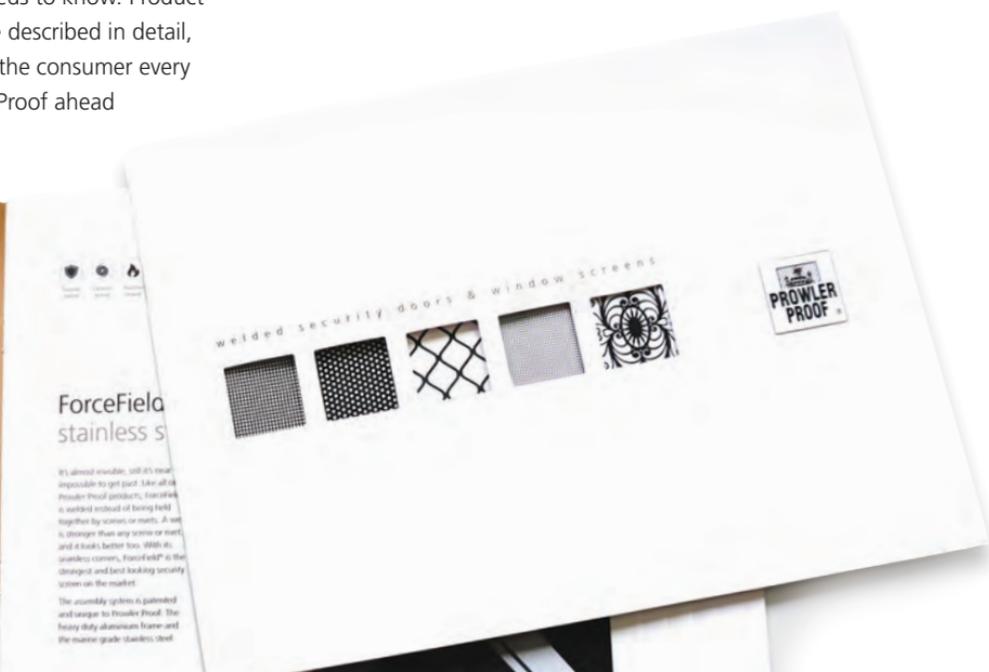

## Contents

- 1 Consumer brochure
- 2 Product sheets
- 3 Pull-up banners
- 4 Images
- 5 Product applications
- 6 Logos
- 7 Typography
- 8 Colours

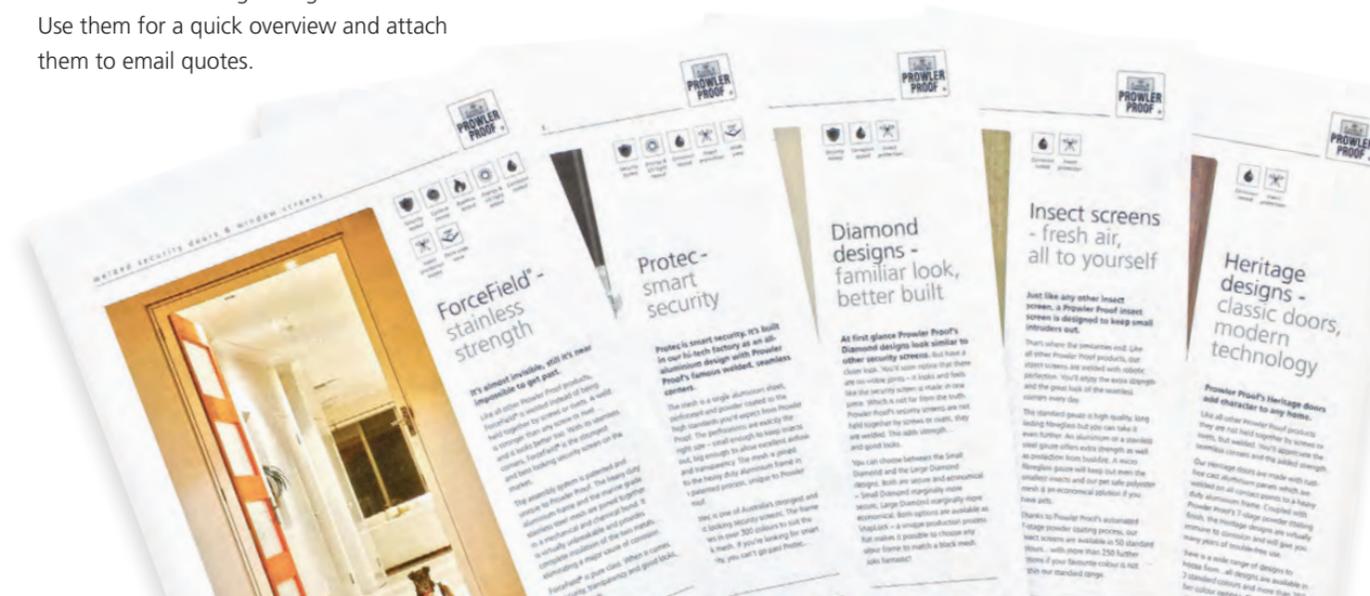

# 1. Consumer brochure

Prowler Proof's consumer brochure contains everything a consumer needs to know. Product range and applications are described in detail, and our brand story gives the consumer every reason to choose Prowler Proof ahead of any other brand.

# 2. Product sheets

The digital product sheets contain most information about Prowler Proof's products on single A4 pages. You'll find separate product sheets on ForceField®, Protec, Diamond and Heritage designs as well as Insect screens. Use them for a quick overview and attach them to email quotes.

### 3. Pull-up banners

The Prowler Proof pull-up banners look great in your showroom, at exhibitions, home shows or anywhere else you want an impressive display. The dimensions are 850 mm x 2000 mm and you have four different designs to choose from. Print your own – the artwork is on your USB stick – or call Prowler Proof for assistance.

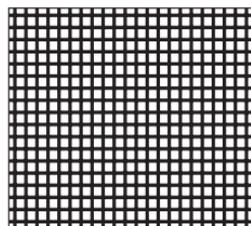

## 4. Images

As a Prowler Proof dealer you have access to a selection of high quality images. Please use the high resolution version of the images for printed materials such as brochures and advertisements. The low resolution version of the images are for websites and other electronic communication.

## 6. Logos

The Prowler Proof corporate logo consists of two main elements:

- 1 Corporate mark
- 2 Technical descriptor

Feel free to use the corporate mark on its own. If you use the complete logo, always use it as shown below.

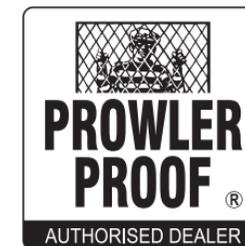

### 6.1 Clear space

Always leave the logo some space to breathe. The guidelines below show how to position each element of the Prowler Proof corporate logo. 'X' is the height of the 'Authorised dealer' box which is the minimum amount of clear space allowed.

### 6.2 Logo versions

There are several versions of the Prowler Proof logo. Please use the version best suited to your communication task. All logos are available in high resolution for all printed material – e.g. brochures and advertisements – as well as low resolution for websites and other electronic communication.

## 6.3 Framed logos

Please use the framed Prowler Proof logos on marketing materials and in ad spaces where the logo needs to distinguish itself from other elements. The framed logos are also ideal for labels.

## 6.4 Colour variations

The Prowler Proof logo is available as black on white – unframed and framed. No other colours or combinations are allowed.

welded  
security  
doors &  
window  
screens

< Use the unframed logo on white background

welded

window  
screens

< Use the framed logo on any background other than white

## 7. Typography

The Prowler Proof corporate mark has been created from the typeface *Helvetica Neue Black Condensed* and the technical descriptor is based on the typeface *Myriad Roman*.

The two main corporate typefaces used in Prowler Proof's external communication are *Frutiger Light* for printed material and *Arial Regular* for web and electronic communication.

Please use *Arial Regular* for printed material if *Frutiger Light* is not available.

**Helvetica Neue Black Condensed**
