

Creating a safer place®

Prowler Proof security doors and window screens are Australia's best looking and strongest performing screens. They are the only security screens manufactured in a fully automated world class factory, delivered to you in the industry's shortest lead time, and backed by a 10 year full replacement warranty.

When you choose Prowler Proof, you know you've made the right choice in 'creating a safer place' for your family.

WELDED CORNERS

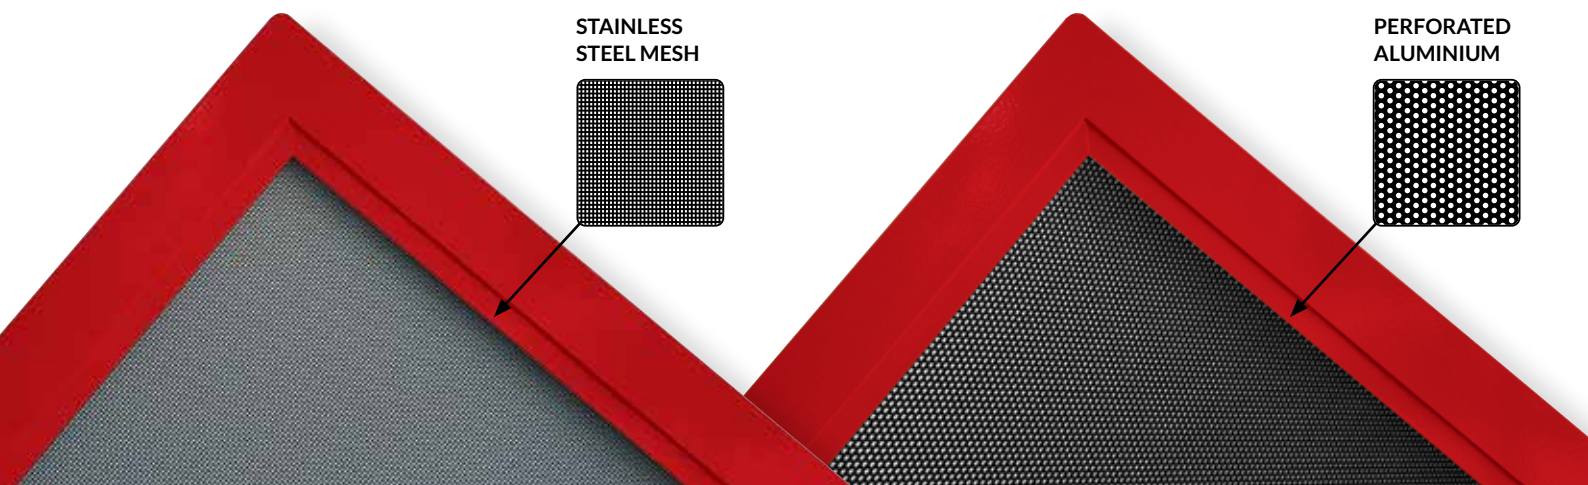

Prowler Proof is the only security screen brand to feature welded corners, not only making it stronger but also better looking. A weld joins two parts together, a screw or a rivet merely hold two parts together. A weld can actually be stronger than the parts joined and it looks better than screws or rivets too.

HIGHEST CORROSION RESISTANCE

Whenever two different metals interact, there's a risk of corrosion. With no fasteners, screws or rivets to penetrate the frame and the mesh in order to keep them together, this risk is eliminated in a Prowler Proof security screen. Our screens are assembled with a heavy duty aluminium frame and mesh insert, joined together in a mechanical and chemical bond that is virtually unbreakable and provides complete insulation of the two metals, eliminating a major cause of corrosion.

PROVEN PERFORMANCE

Prowler Proof products have undergone more independent testing than any other security screen brand on the market. Our security products meet or exceed all relevant Australian Standards as well as some even tougher international standards.

STAINLESS
STEEL MESH

PERFORATED
ALUMINIUM

ForceField®

ForceField's marine grade stainless steel mesh is the ultimate in security, transparency and airflow.

Protec

Protec's perforated mesh is made from a solid aluminium sheet. It's secure, good looking and affordable.

Prowler Proof security doors and window screens are covered by Australia's only 10 year full replacement warranty. Instead of a repair, you get a brand new product.

optional extras

Prowler Proof ForceField® is custom made to suit your home and can be configured as a hinge door, sliding door and window screen. With Prowler Proof's range of manufactured options you are able to secure key entry points to your home.

colours

Prowler Proof is the only security screen manufacturer that gives you 50 standard and more than 250 optional colours to choose from. Prowler Proof is one of only 10 Qualicoat approved powder coating applicators in Australia, and the only security screen manufacturer. Qualicoat's strict standards mean that your Prowler Proof product's powder coating will last the test of time.
